facebook Data Privacy

Security in Connected World

Facebook is an important virtual extension of our social life, almost all of us use Facebook multiple times a day to stay connected with friends and family but, the data that we upload is often private data and can be used for malicious purposes. Recent Cambridge Analytica case clearly shows, how our data can be used for wrongful acts. If you are worried that your data might be circulating among companies without your knowledge, here are some steps that you can take to maintain your privacy on Facebook.
